WHAT TO IMPROVE

4 to fix, 1 to improve, 45 checks passed. Most impactful first.

Fix first 4

- **Serious accessibility issues** Accessibility
  Hard to use for some visitors: Elements must meet minimum color contrast ratio thresholds (2 elements).
- **Content Security Policy** Security
  Add a Content-Security-Policy header to limit where scripts, styles and frames can load from.
- **Image dimensions** Images
  2 of 4 images have no width and height attributes, which causes layout shifts.
- **Image formats** Images
  2 of 4 images are not in a modern format. Serve WebP or AVIF.

Then improve 1

- **Serve images in modern formats** Performance
  Estimated saving: 320 ms, 210 KB.

ACCESSIBILITY

Automated WCAG 2.2 AA audit of the rendered page, with the matching criteria of the European standard EN 301 549 and of the French standard RGAA 4.1. An automated audit finds part of the issues only: it never proves conformance. Keyboard use, reading order and the relevance of texts need a manual review.

Rules failing	WCAG / EN 301 549 criteria	RGAA 4.1 criteria
1 of 64 checked	**1** 1.4.3	**1** of 106 3.2

SERIOUS **Elements must meet minimum color contrast ratio thresholds** — 2 elements

WCAG 1.4.3 Contrast (Minimum) (AA), EN 301 549 9.1.4.3 · RGAA 3.2

COOKIES AND TRACKERS BEFORE CONSENT

What the page sets and contacts on a first visit, before any choice in a cookie banner. Findings to review with the site owner, not a legal opinion. This section is not in the report downloadable from the public status page.

Trackers before consent	Cookies set	Other sites contacted	Consent banner
1	**3**	**3**	**tarteaucitron**

- **Google Analytics** Analytics
  Active before any choice: cookies _ga, _ga_8XK2M1; contacts region1.google-analytics.com. Load it only after the visitor accepts, through the consent banner. A cookie lasts more than 13 months, the longest the CNIL accepts.

Also loaded: Google Tag Manager (tag manager). A tag manager can load other services later, after a click or a scroll.

Every cookie set

Name	Set by	Lifetime	Purpose
_ga	boulangerie-martin.example	405 days	Google Analytics
_ga_8XK2M1	boulangerie-martin.example	405 days	Google Analytics
PHPSESSID	boulangerie-martin.example	Session	Necessary

ECO-DESIGN

Grade from the EcoIndex method (GreenIT.fr), measured on a mobile render of the page scrolled to the bottom: it can differ a little from ecoindex.fr. Not counted in the SEO score.

	Page elements	Requests	Transferred
C 69/100 1.62 g CO2e and 2.43 cl of water per visit, estimated	**412** Weighs most	**36**	**1.2 MB**

The page has many HTML elements: simplify the layout, drop nested wrappers and hidden copies of menus or content.

Heaviest sources

boulangerie-martin.example	27 requests, 1 MB
www.googletagmanager.com	2 requests, 105 KB
region1.google-analytics.com	2 requests, 0 KB
cdn.jsdelivr.net	5 requests, 37 KB

READING THIS REPORT

Uptime	Share of checks where the page answered normally (HTTP 2xx). Each failed check counts as one check interval of downtime.
Response time	Time for the server to answer a check, measured from our monitoring server.
Main content (LCP)	Time until the largest text or image is displayed. Good under 2.5 s.
Interaction (INP)	Delay before the page reacts to a click or a key press. Good under 200 ms.
Layout stability (CLS)	How much the content moves while loading. Good under 0.1.
First content (FCP)	Time until the first text or image appears. Good under 1.8 s.
Server response (TTFB)	Time until the first byte of the page is received. Good under 800 ms.
Real visitors	What 75% of actual visitors experienced over the last 28 days, when the site has enough traffic.
SEO score	Score out of 100 combining ten topics. Each check passes, partly passes or fails; topics are weighted by their impact.
WCAG	Web Content Accessibility Guidelines, the international accessibility rules. Level AA is the usual target.
EN 301 549 and RGAA	The European accessibility standard, referred to by the European Accessibility Act, and its French counterpart. Both build on WCAG.
Cookies before consent	Cookies and trackers that run before the visitor accepts or refuses them. In the EU, only those strictly necessary may.
Consent Mode	Mode where advertising and analytics tags send cookieless pings while consent is denied.
Eco-design grade	Grade from A to G of the EcoIndex method, from the number of page elements, requests and kilobytes transferred.
